

# Thurston Regional Trails Plan

December 2007

**THURSTON REGIONAL PLANNING COUNCIL (TRPC)** is a 21-member intergovernmental board made up of local governmental jurisdictions within Thurston County, plus the Confederated Tribes of the Chehalis Reservation and the Nisqually Indian Tribe. The Council was established in 1967 under RCW 36.70.060, which authorized creation of regional planning councils.

TRPC’s mission is to “**Provide Visionary Leadership on Regional Plans, Policies, and Issues.**” The primary functions of TRPC are to develop regional plans and policies for **transportation** [as the federally recognized Metropolitan Planning Organization (MPO) and state recognized Regional Transportation Planning Organization (RTPO)], **growth management, environmental quality**, and other topics determined by the Council; provide **data and analysis to support local and regional decision making**; act as a “**convener**” to build **community consensus** on regional issues through information and citizen involvement; build intergovernmental consensus on regional plans, policies, and issues, and advocate local implementation; and provide **planning, historic preservation, and technical services** on a contractual basis.

This report was prepared as part of the Thurston Regional Planning Council’s 2007 regional work program.
