

# SHORELINE MASTER PROGRAM

for the  
THURSTON  
REGION

1990

*Thurston Regional Planning Council*

**THURSTON REGIONAL PLANNING COUNCIL** is a 15-member intergovernmental board made up of local governmental jurisdictions within Thurston County, plus the Washington State Capitol Committee, The Evergreen State College, and Intercity Transit. The Council was established in 1967 under RCW 36.70.060 which authorized creation of regional planning councils.

Thurston Regional Planning Council undertakes land use, environmental and transportation research and planning programs of interest to the member jurisdictions. Each member jurisdiction funds the Council's operations based on a per capita formula. The Council is governed by representatives from the member jurisdictions. They determine the budget and work program annually for Council projects and operations.

As a separate function, Thurston Regional Planning Council by intergovernmental agreement also provides the planning staff for the Planning Departments of Thurston County and the City of Olympia. In this function, the contracting governments are the sole determinants of the work program and funding levels for the local planning department work.

This report was prepared as part of the Thurston Regional Planning Council's 1990 regional work program.
