

I. MAP KEY

Most of the "wetland" areas extended two hundred (200) feet landward from the line of vegetation. The two hundred (200) foot boundaries may be measured on site. The swamp and flood plain boundaries have been mapped by the Department of Ecology. These legal maps are available for public inspection in the headquarters of the Department of Ecology in Lacey, with the Thurston County Auditor and the various City Clerks. They closely correspond with those indicated on the maps of this Program.

Boundary lines established between two adjoining environment classifications are keyed on the maps with circled numbers (i.e., 22 ). A list of the legal or general descriptions of these boundaries follows.

### II. LEGAL DESCRIPTIONS

The following legal descriptions mark the boundaries separating shoreline environment designations. It should be noted that property lines used for demarkation that do not extend the full distance covered by the Shoreline Management Act should be considered extended in a straight line the necessary distance covered by the Act in order to fully separate designated environments.

The legal descriptions are numbered to correspond with demarkation lines on the attached county-wide map.
