9. Is there anything else you want to comment on about today's meeting?

   The subject area is the best farm land in the County. It should be encouraged to be used for Agriculture.

Thank you for sharing your responses with us.
There is much better areas for industrial
development, such as Hawks P. and the
Mottman Industrial because these are gravel
areas. The Tumwater area is sandy loam,
a rare productive farm land. The Port
also own land in Grand Mound also a
gravel area very suitable for industrial
development. The Port now spends its
resources to clean up environmental damage.
Some day the Port will pay to reclaim
this farm land. Farm land is
 compatible to urban development since
food production is essential for living.
If the Port is unable to control its
need to destroy this farm land, it should
buy development right on farm land that
is under threat of development. This should
be done acre for acre.

Respectfully Submitted

Steve Wilcox
