

Index of Plan Goals

Chapter & Topic	Goal	Page
Leadership & Participation		
Priority Goal		
1	Create vibrant centers, corridors, and neighborhoods while accommodating growth.	40
2	Preserve environmentally sensitive lands, farmlands, forest lands, prairies, and rural lands and develop compact urban areas.	40
3	Create a robust economy through sustainable practices.	40
4	Protect and improve water quality, including groundwater, rivers, streams, lakes, and the Puget Sound.	41
5	Plan and act toward zero waste in the region.	41
6	Ensure that residents have the resources to meet their daily needs.	41
7	Support local food systems to increase community resilience, health, and economic prosperity.	41
8	Ensure that the region’s water supply sustains people in perpetuity while protecting the environment.	42
9	Move toward a carbon-neutral community.	42
10	Maintain air quality standards.	42
11	Provide opportunities for everyone in the Thurston Region to learn about and practice sustainability.	42
12	Make strategic decisions and investments to advance sustainability regionally.	42
Leadership & Participation		
L-1	Become a model for sustainability and livability. Identify resources, organizational structure, and educational opportunities to achieve regional sustainability goals.	43
L-2	Develop regional plans and strategies essential to meeting sustainability priority goals and targets.	44
L-3	Increase regional, multi-regional and state coordination and collaboration.	46

Chapter & Topic	Goal	Page
Community		
Community		
C-1	North County — Urban Corridors & Centers: Create vibrant city centers and activity nodes along transit corridors that support active transportation and housing, jobs, and services.	81
C-2	South County — City/Town Centers: Create safe and vibrant South County city and town centers that foster entrepreneurship, active transportation, civic pride, and a sense of place.	84
C-3	Neighborhoods: Create safe and vibrant neighborhoods with places that build community and encourage active transportation.	87
C-4	Rural & Resource Lands: Protect the region’s farms, forests, prairies, and open spaces while providing places for those choosing a rural lifestyle.	89
Economy		
Economy		
EC-1	Coordinate economic development efforts to attract and retain businesses and jobs.	107
EC-2	Foster industry clusters to create jobs, and increase revenue circulation locally.	108
EC-3	Create an innovation culture to encourage entrepreneurship.	109
EC-4	Provide robust infrastructure to support economic development.	110
EC-5	Ensure adequate supply of shovel-ready land along primary transportation corridors and invest in commercial and industrial redevelopment.	111
EC-6	Foster a progressive education system to match worker skills with employer needs.	112
Opportunities & Choices		
Housing		
H-1	Improve regulatory clarity and predictability to encourage urban infill and redevelopment.	146
H-2	Increase housing amid urban corridors and centers to meet the needs of a changing population.	147
H-3	Provide sufficient housing for low- and moderate-income households within each jurisdiction.	149
H-4	Maximize opportunity to redevelop land in priority areas by investing in infrastructure and environmental remediation.	150
H-5	Provide sufficient service-enriched housing for homeless and high-risk populations.	150
H-6	Encourage housing density and diversity in neighborhoods to add vibrancy and increase equitable access to opportunity.	151
H-7	Encourage the construction, weatherization and operation of homes to boost energy efficiency.	152

Chapter & Topic	Goal	Page
Health & Human Services		
HHS-1	Provide sufficient health and human services for all county residents.	153
HHS-2	Reduce the incidence of preventable disease.	154
Schools & Transportation		
S-1	Encourage safe and active school transportation to improve community health, economic, and environmental outcomes.	155
S-2	Improve community coordination to create schools that use land, tax dollars, and other resources efficiently.	156
S-3	Improve infrastructure around schools that results in safe pedestrian, bicycle, and bus access.	158
Local Food Systems		
F-1	Coordinate local food planning efforts to create a socially, economically, and environmentally sustainable regional system.	159
F-2	Enhance the economic viability of the local food system.	160
F-3	Ensure universal access to secure, nutritious, and affordable food in the Thurston Region.	162
F-4	Enhance public education and outreach related to the local food system.	163
Transportation System		
T-1	Ensure adequate funding for maintaining and improving an efficient multimodal transportation system that efficiently moves people and goods.	164
T-2	Reduce transportation congestion and environmental impacts.	165
T-3	Consider freight mobility needs in local and regional planning.(Additional Actions in Economy Chapter)	166
T-4	Integrate transportation considerations into land use decisions, and vice versa.	166
Investment		
Water Infrastructure		
WI-1	Provide efficient and effective drinking water infrastructure.	184
WI-2	Manage wastewater in a cost-effective and environmentally sound way.	184
WI-3	Manage stormwater in a cost-effective and environmentally sound way.	186
WI-4	Expand the use of reclaimed water for non-potable uses.	187

Chapter & Topic	Goal	Page
Energy		
EN-1	Increase energy generation from renewable resources to reduce the region's carbon footprint.	188
EN-2	Enhance the region's electricity distribution, monitoring and storage infrastructure to support adoption of cleaner technologies and practices.	189
EN-3	Increase energy efficiency and conservation to reduce the region's carbon footprint.	190
Public Safety		
PS-1	Provide emergency services in a dependable and efficient manner to meet the dynamic needs of a diverse society.	191
PS-2	Create a resilient region by improving disaster preparedness, response, and recovery efforts, as well as by expanding public safety education.	193
Solid Waste		
SW-1	Plan and take action to reduce, reuse and recycle as much waste as possible and meet the needs of current and future populations.	196
SW-2	Continue to plan for, educate, assist and offer access to safely and efficiently manage disposal and reduce hazardous waste.	198
Environment		
Environment		
E-1	Reduce air pollution that endangers human health.	211
E-2	Reduce the region's carbon footprint and protect critical infrastructure in case of extreme weather or sea level rise.	211
E-3	Conserve and protect drinking water to meet the region's daily and long-term needs.	213
E-4	Protect, preserve and restore streams, wetlands, and shorelines to protect water quality.	215
