</table>
| 1. Introductions and Project Updates | Self-introductions.  
Allison Osterberg from TRPC provided project updates.                                                                                                                                               |
| 2. Community Action List             | Allison Osterberg gave overview of the action list activity. Workgroup members broke into sector-focused groups to edit action list master sheet from three prompts;  
• Add any actions that are missing.  
• Suggest revisions or consolidations to actions list.  
• If time allows, identify a potential action lead (and partners if applicable).                                                                                      |
| 3. Criteria Selection                | Workgroup members were asked to identify their priority actions from the master list, and consider how that would influence potential criteria for prioritizing actions. Workgroup members discussed criteria within their sector groups. |
| 4. Multi-criteria Analysis           | Roel Hammerschlag discussed the process for refining action items, and how selected actions will be presented in the draft action plan. Advisory Workgroup members made a recommendation for priority criteria:  
• GHG reduction potential  
• Speed of deployment  
• Sustainability – clarify definition to reflect “builds capacity”  
• Social equity  
• Measurability  
• Readiness  
• Education value – includes “behavior change”  
The Steering Committee will review the recommendation and decide on criteria for analysis in their October meeting.                                                                                                   |
| 5. Next Steps                        | Allison Osterberg briefly introduced the climate mitigation plan schedule. Advisory Subgroups will meet in November, Advisory Workgroup will meet in January.                                                  |
| 6. Public Comments                   | No public comments were submitted.                                                                                                                                                                 |
Meeting Attendance

Advisory Workgroup Members Present:
Tom Crawford
Rachael Jamison
Brian Lagerberg
John Maclean
Jessica Gould
Gary Idleburg
Karin Landsberg
Scott Morgan
Candace Penn
Mason Rudolph
Joe Roush
Hilary Seidel
Art Starry
Wendy Steffen
Chris Van Daalen
Ron Major (for Michael van Gelder)

Community Members Present:
Ari Simmons
Matthew Karas
Aisyah Hassan

Project Team Members Present:
Rich Hoey
Jessica Brandt
Brad Medrud
Chris Hawkins

TRPC Staff Present:
Allison Osterberg
Karen Parkhurst
Les Tobias

Consultant Team:
Roel Hammerschlag

Next Meeting: to be determined.

Thurston Climate Mitigation Plan Coordinator:
Allison Osterberg
